

ErrandRunner

By:

Jessie & Joyce

ErrandRunner – A Website where you can request errands to be fulfilled.

This application is a needs-based application, for a consumer base that might have limited mobility or restrictions to do daily tasks and need assistance in doing so.

ErrandRunner objectives

Objective 1

Provide assistance to those who need it in doing daily tasks.

Objective 2

Provide a source of income for local aid, incentivizing them to aid their local communities.

Objective 3

Provide ways for customers to leave ratings and reviews on runner performance and for runners to respond back to better improve their services.

ErrandRunner objectives

These are some of the future objectives we wish to solve for our website, ErrandRunner.
